**DETAILED ACTION**

***Status of Claims***

1. In the Amendment dated 08/15/2006, Claims 1, 5-8 and 10 have been cancelled and Claim 20 has been added; therefore, Claims 2-4, 9, and 11-20 remain pending.

***Allowable Subject Matter***

2. Claim 2-4, 9, and 11-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 2-4, 9, and 11-12, and 14-19 have been found to be novel and inventive because prior art fails to teach or suggest storing a time sequence of movements in a flash memory for displaying the path of travel of the moving object over time at a remote location. Claims 13 and 20 have been found to be novel and inventive because prior art fails to teach or suggest firmware containing a plurality of timers, each time being connected with a respected one of a plurality of alerts and each timer being programmed to effect transmission of a signal from a tag to a software component over a communications network indicative of said alert.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to

Art Unit: 2612

avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
